THE YORK MINSTER ROSE

*In collaboration with Harkness Roses of Hitchin, the York Minster Fund has great pleasure in introducing the **York Minster Rose***

The **York Minster Rose** is a repeat flowering floribunda bush, about 3ft high. The creamy, full petals with a delicate flush are set off by golden stamens, echoing the centre of the wonderful Rose Window in York Minster. It has a delightful perfume and is a particularly healthy and vigorous cultivar. Harkness Roses, founded in Harkness, North Yorkshire in 1879, is a family run firm, one of the leading rose breeders in the country, and was one of the first to work without using pesticides.

This initiative supports the restoration of York Minster, a glorious and iconic expression of our heritage.

- **York Minster receives no Government money for restoration**
- **York Minster receives no money from the Church of England for restoration**
- **York Minster receives no money from the Diocese of York for restoration**

Thank you so much for your participation in this exciting project

The York Minster Fund raises money for the preservation and restoration of York Minster. No money is received for this purpose from the Church of England, the Government or from the Diocese of York, and so raising funds to support this work is a continuous challenge
